PROJECT OVERVIEW · GUIDE

Constituency Complaint Management System

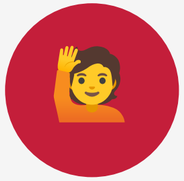

How citizens, officers and the office each use the platform

AC-215 · TIRUCHENDUR CONSTITUENCY

THE BIG PICTURE

One platform. Three people. One goal.

Every complaint moves smoothly between these three — no paperwork, no phone tag.

Citizen

Raises a complaint in under 60 seconds — from WhatsApp or the app.

Officer

Gets it instantly, fixes the issue on the ground, and updates its status.

Office / MLA Team

Watches everything live — who's doing what, where, and how fast.

Citizen raises it → Officer resolves it → Office monitors it, always

CITIZEN JOURNEY

How a citizen raises a complaint

Simple enough for anyone — no training needed.

1

Open WhatsApp or Mobile App

No account or download required for WhatsApp / Email.

2

Describe the problem

Speak or type in Tamil — a photo helps too.

3

The system sorts it automatically

It reads the message and identifies the issue instantly.

4

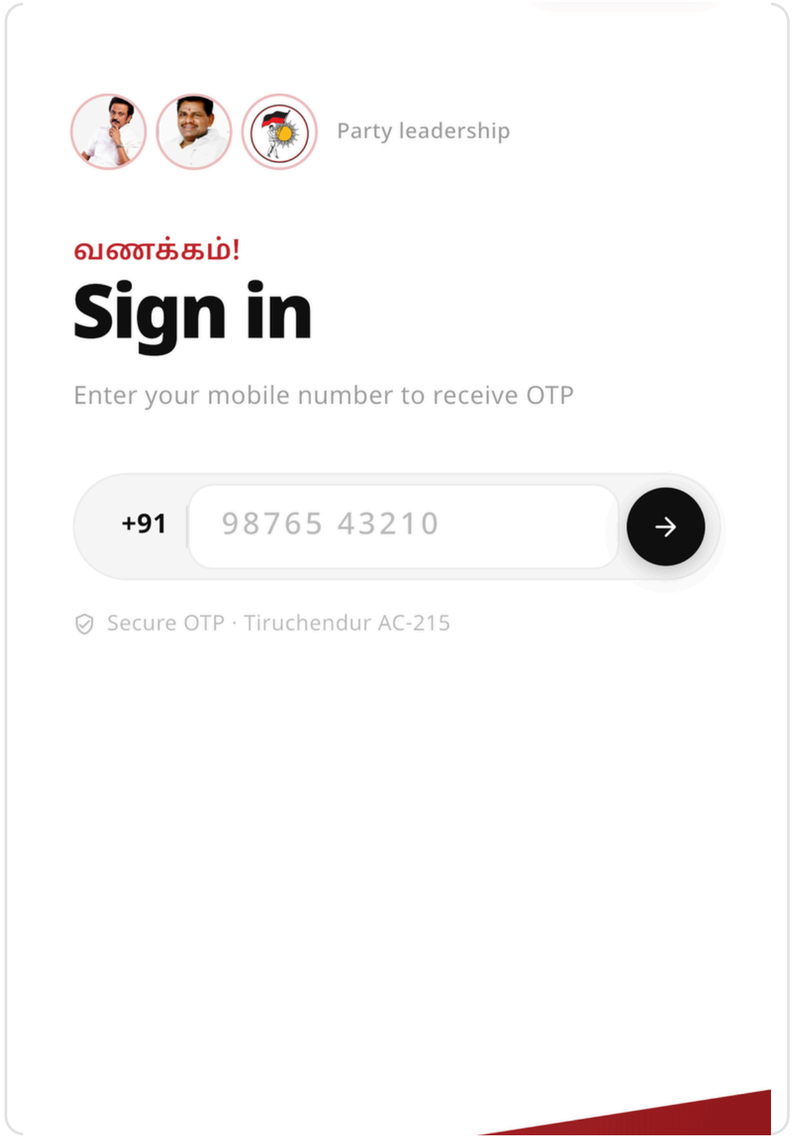

Get a complaint number right away

So it can always be tracked.

5

Receive updates until it's solved

A message arrives at every step, in Tamil.

OFFICER JOURNEY

How an officer resolves it

From alert to action, all on one screen.

1

Get notified instantly

A push alert arrives the moment a complaint is assigned.

2

See the full picture

What the issue is, where it is, and who raised it.

3

Go fix it, on the spot

Add before/after photos as proof of the work done.

4

Update the status

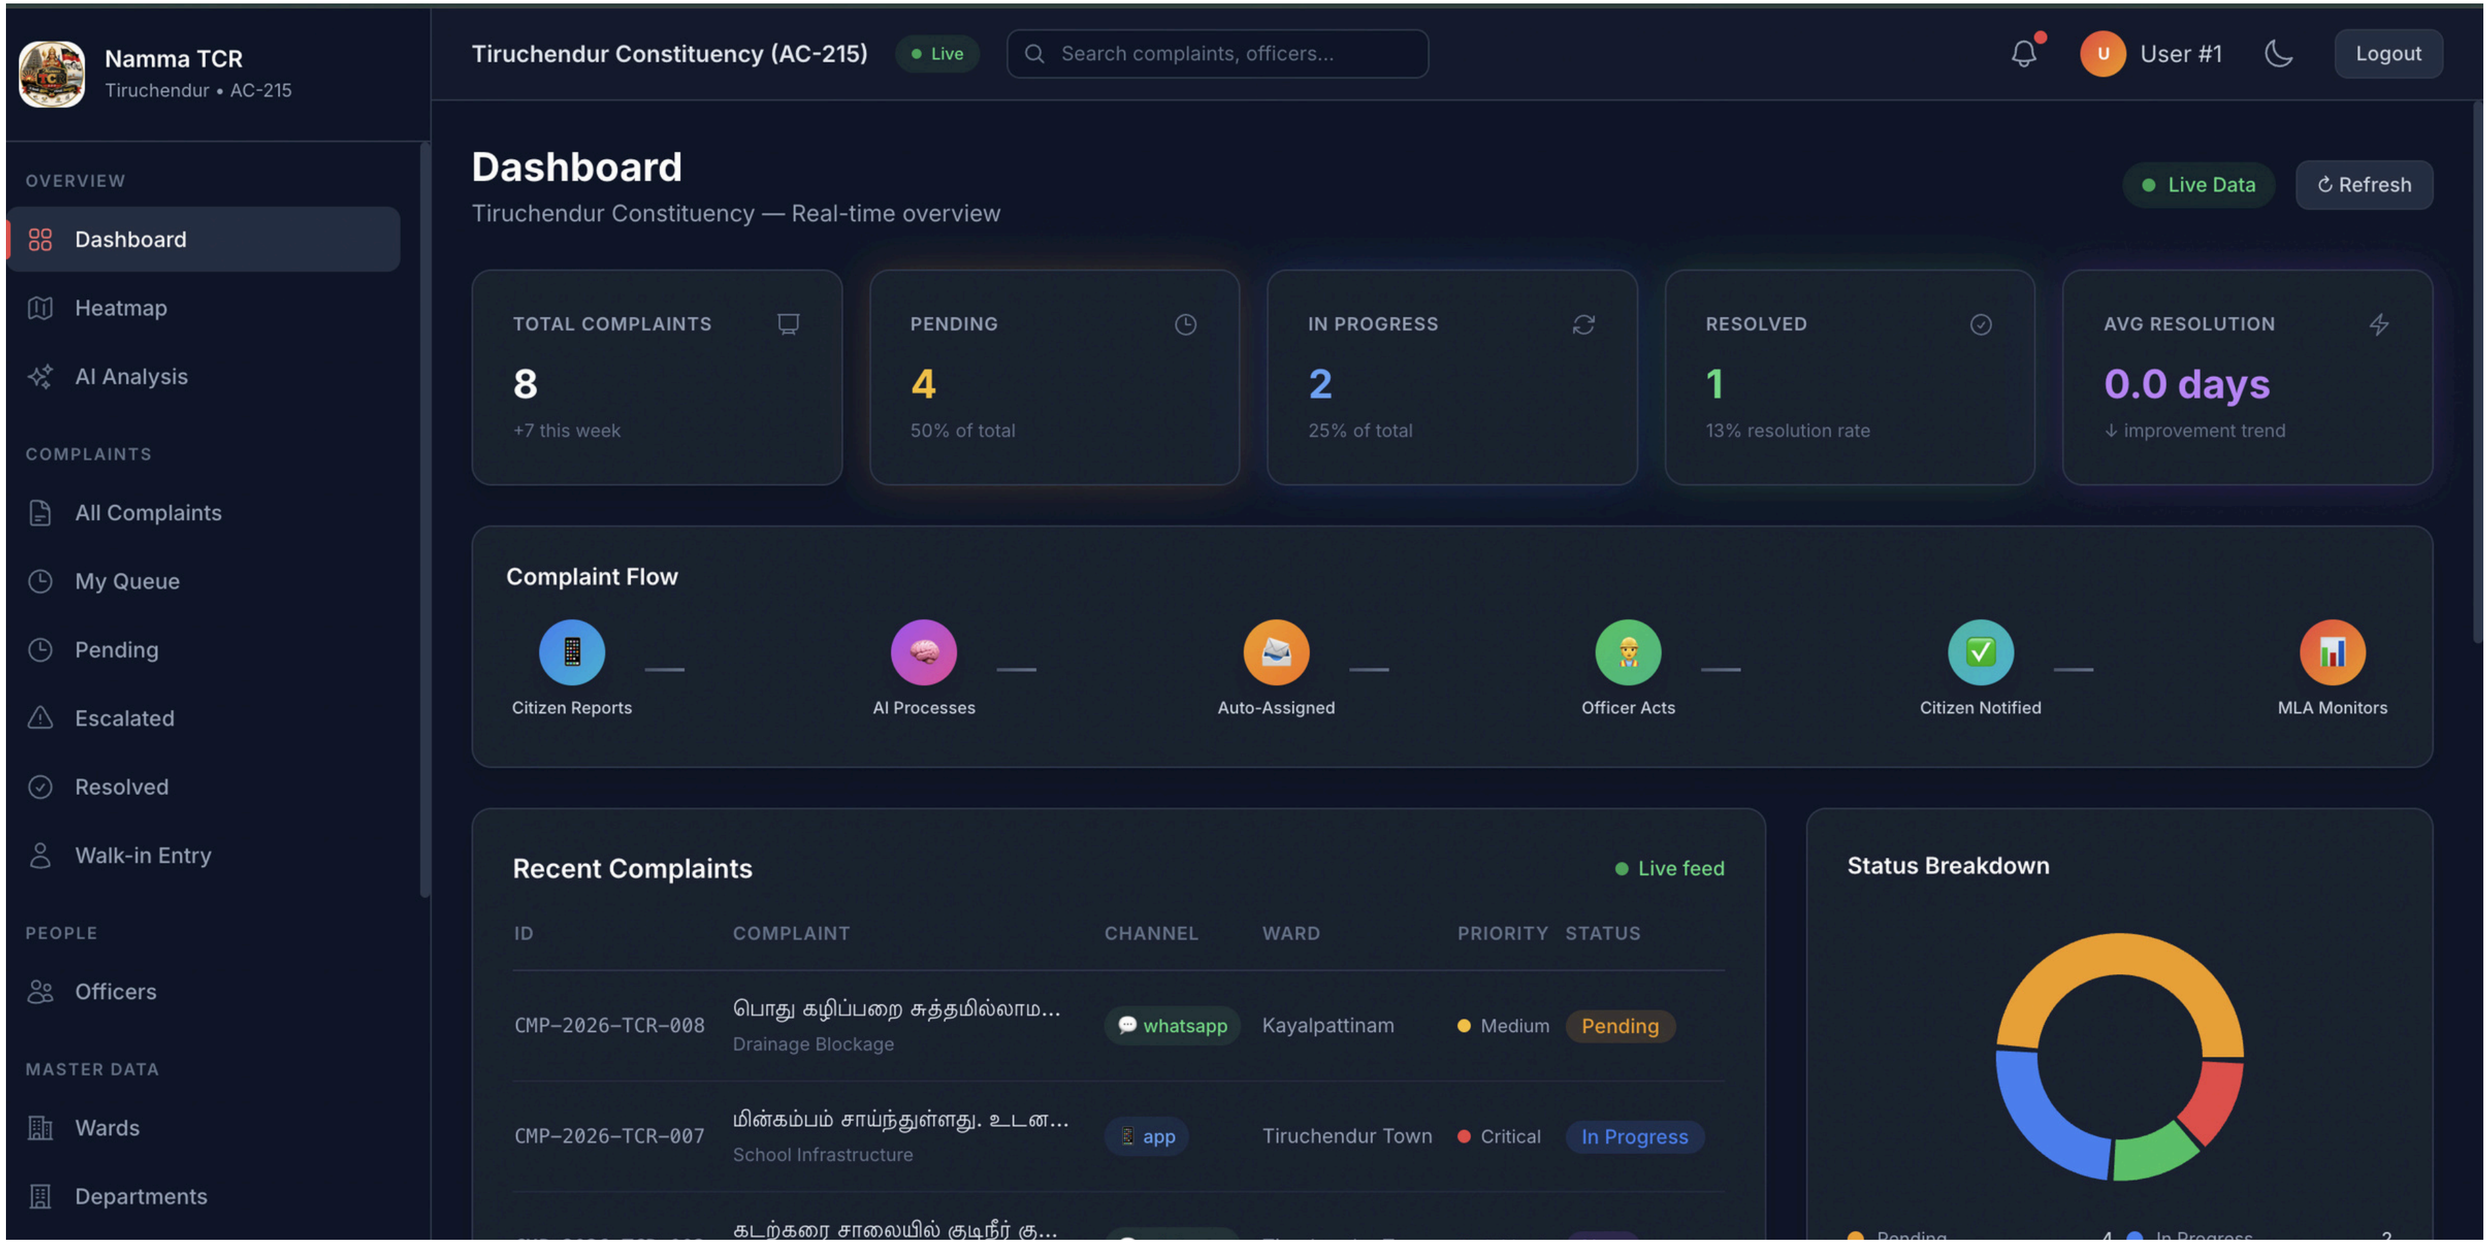

Mark it In Progress or Resolved in a couple of taps.

5

Citizen is told automatically

No extra step needed — the update goes out by itself.

What the MLA / Officer sees

A CITIZEN'S VOICE, ANSWERED IN REAL TIME

Simple for citizens.
Smart for the office.
